

# National Numeracy Day

22 May 2024

On **Wednesday 22nd May**, we will be taking part in **National Numeracy Day**, a day dedicated to everyday maths. During the day, we will be thinking about the different ways that we use numbers in our daily lives. We will also be taking part in some of the National Numeracy Day activities, including number puzzles, investigations and challenges.

## Parent Challenge

Please look out for details of a parent challenge we hope you will join in with.

## Non-Uniform Day

This will be a non-uniform day (no donation required) where we invite the children to come to school wearing numbers or dressed as a number. Please do not buy anything new! You can write numbers on an old t-shirt or cut some numbers out of paper and Sellotape them on.

## Number Heroes Competition

Run by National Numeracy, this competition is open to all children from 3 - 13. The task is for children to create a picture of themselves doing their dream job or hobby and explain how it uses numbers.

Please [click here](#) for more information. There are some fantastic prizes to be won!

## Maths at Home

We would love to see the different ways that the children use Maths/Numbers at home or in the community. Please email any photos you would like to share with us to [office@bowesprimary.org](mailto:office@bowesprimary.org).

Examples: using money to pay for something in a shop, counting how many steps you have walked in a day, a photo of you practising your maths skills.

## Parent Support The National Numeracy Challenge

The National Numeracy Challenge is a free and easy-to-use website you can access to improve your confidence with numbers, in your own time and at your own pace.

**Thank you for your support. We look forward to a great day celebrating numbers!**
