**Commentary on results:** Parents seem to be walking more this year and children are also scootering to school. Because our school is sited near the North Circular, families are reluctant to cycle to school (this has remained the same since last year. Parents do use park and stride and park away from the school as there is limited parking around the school itself. We have purchased new balanceability bikes this year for Nursery and Reception and this will teach children at a very young age to start cycling.
